Power Outage Necessitates Additional Trash Collection in Mt. Adams

Due to an overnight power outage, business owners in Mt. Adams are experiencing difficulty with food inventory that has spoiled. To assist those affected business owners, the City will place a dumpster at 940 Pavilion Street in Mt. Adams, so that business owners can dispose of their perishable inventory.

Tomorrow is a regular trash collection day for Mt. Adams. As long as trash is properly prepared, any additional trash will be picked up for regular City of Cincinnati customers by Department of Public Services crews during the normal trash collection Thursday, July 20. For commercial business clients, additional commercial services will be offered to businesses in Mt. Adams by their regular provider during this period.
